Objectives	The main aim of the seminar is to provide the students with the historical, institutional and legal background of Turkey-EU relations and Turkey's EU accession process. The seminar will kick off with a set of introductory sessions on the underlying institutional and sectoral setup of the dialogue between Turkey and the EU and on the analysis of the historical milestones that have shaped the bilateral relationship between the two parties.			
Content	The seminar will then take a closer look at topical issues in the relations between the two parties as well as at current global and regional challenges and their implications for Turkey-EU affairs. In this context issues that define the limits and potentials of Turkey as an economic, foreign, and security policy partner for the EU will be examined as well as chances for Turkey's integration into the EU.
