Title					Α	L	ECTS	
Seminar					0	0	2	
Language	German							
Level	Undergraduate X Graduate					Postgra	duate	
Department / Program	Energy Science and	Technologies	5					
Forms of Teaching and Learning	Face to face							
Course Type	Compulsory		X	Ele	Elective			
Objectives	The aim of the course is to develop an ability to communicate, explain, discuss and communicate in front of the group by preparing a study that will contribute to the contemporary and educational process related to a topic or thesis topic that the student has mastered, as appropriate to scientific research methods.							
Content	At the beginning of the semester, the students identify a seminar topic together with the lecturer who gives the seminar lecture by conducting a literature search on a topic or thesis studies they master. During the process of determining the seminar topic, books related to the subject, theses, articles etc. made at home and abroad. all scientific studies are examined. In the following weeks of the seminar, the work on the seminar topic is presented to the faculty member by the student. The instructor guides the student by reviewing the work presented with the student and making the necessary corrections.
