Objectives	<p>The main aim of this course is to examine and evaluate the qualifications of Turkish Athletes' freedom of movement within the scope of Turkey - European Union Association Law. In this context, ECJ's decisions concerning the rights of Turkish athletes arising from the Association law and its reflections on Turkey will be examined. European Union Association Law rules on Turkish law will be analyzed. To achieve this, a comprehensive picture of the general principles and rules governing the free movement of athletes in the European union has to be shown. It is unlikely that a general pattern will emerge, unless one does a comprehensive review of ECJ's decisions in this area since the 70s. On the other hand, developments in international sports law will also be addressed in the context of their effect on the free movement of athletes in the European Union.</p>
