Final Exam			
Total Work Load			2688
ECTS Points (Total Work Load / 28)			96

Learning Outcomes

1	Critically analyzes and synthesizes current and complex literature in the field of expertise, and establishes the theoretical foundations required to define an original research problem.
2	Designs and implements an original methodological approach (e.g., modular teaching method) to fill the identified scientific gap, and interprets the obtained data using advanced techniques.
3	Independently conducts an original study that introduces innovations to the field of science in adherence to scientific ethical principles, and reports the findings in accordance with international academic standards.
